

Skunk Odor Removal Recipe

Ingredients:

1 quart 3% hydrogen peroxide

¼ cup baking soda

1 teaspoon liquid soap

- Using a two-quart bowl and spoon, dissolve the baking soda in the hydrogen peroxide and mix in the liquid soap.
- Pour into a spray bottle. Liberally apply mixture to pet's fur avoiding eyes and mouth, and rub it in well.
- Wait 15 minutes and completely rinse the animal with tap water.
- One treatment is usually satisfactory. The rinse will safely deodorize your animal as well as affected people.
